ENS declarations

A checklist *for trader of SPS goods**

✔ Ensure you and your haulier/intermediary register to TSS

✔ Ensure your haulier is registered to the Goods Vehicle Movement Service (GVMS) in order to get a Goods Movement Reference (GMR)

✔ Ensure you have obtained required certification – i.e. Export Health or Phytosanitary certificates

✔ Ensure you have or can provide your haulier/intermediary with the data required to complete ENS (see below)

✔ You or your haulier/intermediary need to submit this data through the TSS portal at least two hours before goods are due to arrive in NI

> ➢ TSS completes import declaration requirements
> ➢ Your haulier populates GMR in GVMS using information provided by TSS
> ➢ Once GMR is completed, your haulier can board the ferry and move the goods

What is an ENS?

ENS declarations will be required for all goods moved from Great Britain to Northern Ireland from 1 January 2021.

It is the legal responsibility of carrier to ensure safety and security information is declared via the ENS but other parties (trader, haulier or intermediary) may agree to complete it.

How TSS supports ENS

The Trader Support Service (TSS) will provide a portal for registered traders, carriers and hauliers to provide Safety & Security data, which TSS will use to generate and submit ENS Safety & Security declarations to HMRC.

TSS will use this and further data provided by the trader to complete import declaration requirements.

*Sanitary and Phytosanitary
