- ☐ Submit this data through the TSS Portal at least two hours before goods are due to arrive in Northern Ireland. You or your haulier/intermediary can complete this step.
-  *TSS completes import declaration requirements.*
-  *Your haulier populates the GMR in GVMS using information provided by TSS.*
-  *Once the GMR is completed, your haulier can board the ferry and move the goods.*

What is an Entry Summary Declaration?

- Entry Summary Declarations are required for all goods moved from Great Britain to Northern Ireland.
- It is the legal responsibility of the carrier to ensure safety and security information is declared via the Entry Summary Declaration, but other parties (trader, haulier or intermediary) may agree to complete it.

Note: Alcohol, tobacco and fuel are examples of excise goods.

How does TSS support Entry Summary Declarations?

- TSS provides a portal for registered traders, carriers and hauliers to provide safety and security information that TSS uses to generate and submit Entry Summary Declarations.
- TSS uses safety and security information from the Entry Summary Declaration and further data provided by the trader to complete import declaration requirements.
